

## MLS Authorization for 3<sup>rd</sup> Party SSO Implementation

By signing below, the MLS authorizes FBS to allow the third party software listed below to use flexmls SSO for authentication.

This authorization is under the terms of the flexmls Software License Agreement between the MLS and FBS, including the provision requiring the MLS to indemnify, defend and hold harmless FBS from any claims arising out of the Agreement and this authorization or use of flexmls SSO by the authorized third party.

The third party should be able to implement flexmls SSO by following the documentation provided [here](#). If the third party needs consulting from FBS, the MLS understands FBS may charge the third party an hourly fee for such consulting.
